RICHMOND, CALIFORNIA, FRIDAY, May 30, 1913

No. 22

Naval Base Stiffens Prices of Homesites

Harbor View Property Along Berkeley, Albany and Richmond Bay Shores in Demand.

"There are skeptical persons who are positive that all big improvements are inaugurated by designing 'real estate sharks,'" said a well known dealer on Shattuck avenue, Berkeley, the other day, when asked what he thought of the government's project in establishing a naval base along the Berkeley, Albany and Richmond shore lines.

"But let me say right here and now that all property within two miles of the Berkeley, Albany and Richmond shore lines will advance 50 per cent within the next two years. I am making this estimate as a general average. Much of it will advance 200 per cent, and some of it still more than that."

"But how do you know that the government has decided to establish this great naval station here? Are you sure that this is not all real estate brokers' dreams?"

"Emphatically, I am sure that it is not. Several naval officers have recently purchased beautiful homesites in Northbrae which overlook a marine view unequalled on either coast of the United States. The hill residence property extending through Northbrae, Thousand Oaks and Kensington on to Richmond Heights will rapidly advance in value from now on. The bay shore and valley land is now gilt edge property, and in a few years will be built solid from the bay shores of Berkeley, Albany and Richmond to the hills. Take my advice and invest now while Old Opportunity is knocking. This may be the last call. 'Get in on the ground floor.'"

Passing of Pioneer.

Mrs. Harriet Harding, widow of the late John Harding of Martinez, died at her home in that city last Sunday morning. Deceased had been a resident of Contra Costa county for over 50 years and was 84 years at the time of her death. She was a native of Maine. She was the mother of A. D. M. M. and Miss C. E. Waltz of Los Angeles. Mrs. N. A. Powers of Pacheco. Mrs. C. Sharp of Martinez, Mrs. L. A. Wells of San Francisco, Mrs. H. P. Pearson of Watsonville, Mrs. A. M. Ballard of Oakland, Miss A. Harding of Fresno, Mrs. R. H. Lewis of San Francisco. She also leaves one brother, Robert Winslow of Nobleboro, Maine. Mrs. Harding also leaves 12 grandchildren and two great grandchildren. The funeral was held Monday afternoon from Grace Episcopal church, Martinez, her six grandsons acting as pallbearers.

Mountain Trout.

Chester Matthews of Davisville, Plumas county, remembered, the Terminal this week with a consignment of brook and rainbow trout, fresh from the cold mountain streams of that scenic Feather river region. The Terminal's special photographer, Lisle C. Green, is responsible for this country shown by Mr. Matthews, Mr. Green having taken some of the best photographs of the scenery of that section of the state that have ever appeared in the magazines and literature describing that wild country where game and fish are plentiful.

Two Burglaries.

The tailor shop of Joe Marzullo, 618 1/2 Macdonald avenue, was entered Sunday about noon and three suits of clothes stolen. Entrance was effected by means of a skeleton key. Although they were seen in the building by passersby, it was not suspected they were daylight burglars. Mr. Marzullo recently opened the tailorshop at the above address, and can ill afford to lose the three suits valued at \$100.

An attempt was made Monday night to burglarize the residence of O. C. Staley on Nevin avenue.

The Richmond Terminal is circulating extensively among the workmen.

Albany Briefs.

Albany is in the spotlight.

The Albany schools close the 20th for the summer vacation.

Albany has some live boosters. Richmond and Albany are "pards."

Mr. and Mrs. Floyd E. Pinger arrived from Los Angeles last Saturday, where they made an extended visit.

A fine business block is being constructed on Main street near Kains avenue by H. Rinaldo of San Francisco.

The ordinance requiring sidewalk to be laid within 90 days has caused activity in the cement market in Albany.

Geo. W. Nickerson, former city clerk, now town trustee, will sub for Rollin Goold, city clerk, during the latter's 90 day leave of absence.

Mr. and Mrs. J. Thelan expect to occupy their new home next week. Many improvements have been made, and a cozy new home awaits them.

Gene Bennett, the man from the Lone Star state, is George Friend's top notcher in selling attractive Northbrae, Thousand Oaks and Albany property.

T. J. Tynan, who has the cosy little real estate office on Main street on the S. P. electric, is selling some beautiful marine views. Three in one day is pretty fair.

The trustees rescinded their action in regard to making sidewalk inspector permanent job at \$4 per. The inspector is authorized to inspect one day a week.

Albany is favored with better transportation facilities than any suburban town around the bay. The tax rate is 75 cents, which in itself is an inducement worth while.

Marshall Olavinovich has paid for his motorcycle out of the fines collected from the speed artists between Contra Costa county and Oakland, who often forget and "hit the high places" only.

The ladies' aid society of the Methodist church met at the home of Mrs. Lowe. On account of the rainy weather the attendance was small; however, a most enjoyable afternoon was spent.

Thomas McCortney is the new president of the Improvement club and F. E. Pinger is secretary. The club is doing good work, and has a representative attending the big booster meet in Oakland today.

The social sewing club members with their husbands, meet at the home of Mrs. Brunz in Berkeley next Monday evening. These social evenings are looked forward to with much pleasure by members of the club.

Rollin Goold and family left for Fresno Wednesday to be absent three months. Mrs. Goold's health required a change and it is expected that she will return benefited by the valley climate. They have the best wishes of their many friends, who will miss them greatly during their absence.

Richmond and Albany will soon be connected by way of Macdonald avenue and Richmond Junction Heights, the fine boulevard now in the making which connects with the beautiful hill additions of Kensington, Northbrae and the University of California, one of the most attractive scenic drives in California.

The Terminal Sold It For Them.

Richmond Terminal, Richmond, Cal.—Gentlemen: Please discontinue display adv. for sale of 200-acre fig tract near Merced. The land was sold directly through the adv. placed in your columns by our company, E. M. Prizer of Merced, handling the advertising of the firm. Merced Investment and Improvement Co.

Hunting and Fishing.

Frank Lucas, L. H. Schraeder and Tom Conn have gone to the hunting and fishing grounds of the McCloud river country. They are making the trip by auto, and expect to be absent ten days. Sample photographic pictures of some of the fish they expect to catch are on exhibition at the Terminal office.

Present Traffic On Richmond's Harbor

Few Persons Acquainted With the Volume of Business Now Carried On.

Captain Lauritzen of the Richmond Navigation Co. is doing a fine business in freight traffic between the Richmond inner harbor landing and the Vallejo street slip, San Francisco. Captain Lauritzen says that with the expenditure of a few thousand dollars by the city in dredging, the inner harbor would resemble the Oakland harbor for shipping in a short time. With his small vessel, the "Governor," he does a large business between the two ports, the congested condition of the warehouse at the landing on this side being ocular proof that the captain with the "Governor" is a busy man transporting merchandise across San Francisco Bay between the two marts of trade, Richmond and San Francisco.

City Briefs.

J. B. Ogborn is sojourning in San Mateo county.

H. A. Young has sold his Macdonald avenue barber shop.

Meyers & Gould have opened a real estate office in Stege.

Mrs. W. A. Rugg of Martinez is visiting relatives in Richmond.

Richmond public schools will close today for the summer vacation.

P. B. MacQuiddy is completing an attractive residence on Potrero avenue.

Several Richmond persons narrowly escaped in the Long Beach accident.

Richmond is greatly in need of those municipal baths. Piedmont is too far away.

Mrs. W. J. Baker of Oakland visited relatives in Richmond and Albany this week.

J. L. Rihn, the real estate dealer, has returned from a pleasant vacation in the Southland.

The carmen have organized a baseball team and are ready to meet all the amateurs that pass this way.

Work on the new electric line from Ashland avenue to the foot of Washington is being rushed and will soon be ready to operate.

Mrs. G. W. Hunter left Tuesday for Detroit where she will visit relatives. Mrs. Hunter is the wife of the well known pharmacist with Ferguson the druggist.

Sixteenth street is being improved and will undoubtedly be one of the main cross town business thoroughfares. Best and Hartwick have disposed of their gondolas.

Mrs. Anna H. deRoco, who suffered from paralysis for a number of years, passed away Tuesday afternoon. She leaves a wide circle of friends in Richmond. She was a native of this state.

The walls of the Anderson building on Richmond avenue at the Point are rising skyward under the supervision of Contractor Penry, who has a large force of bricklayers at work on the job.

The annual convention of the Contra Costa Sunday-school convention held in Pittsburg last Friday and Saturday was attended by 100 Sunday-school workers from the various towns in the county.

Mrs. C. M. Concaunon and son, accompanied by Mr. Concaunon, have gone to Riverbank for a short vacation, and to visit relatives. Mr. Concaunon will return and continue doing the Zellerbach paper route in a few days.

The S. P. Co. will segregate the steam and electric lines, having separate offices for each, affecting the systems around the bay. Headquarters will remain at Oakland Pier. The S. P. has 45 miles of electric lines in the bay district.

Sheriff R. R. Veale and Supervisor Warren H. McBryde, recently appointed to succeed Chas. J. Rihn, have been granted a 60 day leave of absence. This will permit these gentlemen to accompany the booster crowd to Washington in June to work for the inner harbor.

Twenty Miles of Deep Waterfront

Gigantic Plans Submitted by Government Official at Big Meeting in Oakland.

Colonel Thomas H. Rees was the center of attraction yesterday at the big meeting called by the Oakland Chamber of Commerce when the comprehensive plans of the bay cities harbor development were discussed.

Colonel Rees was commissioned by the government to make an examination of harbor possibilities in accordance with a resolution passed by congress last March. Since that time he has been active in preparing the report which he submitted yesterday to the chamber at Oakland.

Colonel Rees proposes to build a great breakwater from the Oakland mole to Point Richmond. Within the breakwater will be a channel 1500 feet wide at the Oakland entrance, and 1200 feet wide at other points, ultimately dredged to a depth of 30 feet. The tidelands on the shore side of the channel will be reclaimed for factory sites, docks and terminals.

The meeting yesterday in Oakland was for the purpose of ascertaining whether the project would meet with favor by the east bay shore cities.

The work will be of enormous magnitude and require not less than six years to complete it.

One of the problems to be solved in carrying out this project will be the disposition of the various piers.

Gilt Edge Property.

Gignoux Bros. Harbor Front tract is in close proximity to the proposed naval base. This property is now being laid out by Grow & Calfee, civil engineers, preparatory to placing it on the market.

Chandler, Bourn & Miller have a fine tract in this vicinity, and all of it commands a fine view of the harbor and will be in great demand for residence property and business blocks as well. This will undoubtedly be one of the congested centers of Richmond in a few years.

Industrial Commission.

The membership of the Richmond Industrial Commission attended an important meeting of that organization yesterday at Hotel Sutter, San Francisco, at which final arrangements for the trip were made.

Successful Meeting.

The Contra Costa Sunday-school convention held in Pittsburg last Friday and Saturday was the best in the history of the county. Much praise is due Mrs. Cooke, superintendents of the Pittsburg school and her corps of workers, also the grammar school teachers, who worked so willingly. Pittsburg is a growing town. The people have a lot of push and hustle and co-operate so well with each other. When anything of note comes to their little city they all, regardless of business or creed get in and help do with willing hands and hearts what they are asked to do. We wish Richmond had a little more of that spirit and that every little bunch here and there would not imagine they were the only ones alive and doing fine work.

S. S. WORKER.

A Terminal adv. sold it.

Gets San Mateo Business.

J. B. Ogborn, city architect, is drawing the plans for a \$7000 residence in San Mateo. Mr. Ogborn is well known down the peninsula, and owns a beautiful country place in that locality. For climate, attractive homes, beautiful gardens and flowers, the San Mateo section of the peninsula is far in advance of certain localities on this side of the bay. We are too busy building factories, tunnels and naval bases to "beautify."

Merchants watch the weather-vane. They know that advertising brings results in the newspaper that stands by the workingman. Richmond is a workingman's town.

Miles of Richmond Street Improvements

Contracts Totalling Several Hundred Thousand Dollars Are Awarded.

RICHMOND, Monday, May 26.—Members present: Councilmen Follett, Garrard, Hartnett, McDuff, Penry, Dooling and Willis, the latter presiding. Absent: Owens and Ludewig.

Proceedings adopted for improvement of Roosevelt Ave., 19th, 17th, 13th, 14th, 15th, 16th and 18th streets, Soito, Main and Castro avenues and Espee street. Majority of these to be paved with bitulithic.

Petitions for fire hydrants at 22d and Barrett, 23d and Main, 20th and Montgomery referred. People's Water Co. communication referred.

Communication from Santa Fe referred. Virginia street contract extended 30 days. Page's 11th street improvement extended 60 days. Espee avenue improvement rescinded, new adopted.

City architect asks for one week's leave of absence, granted.

Engineer Haviland reported that there would be no more legal complications in condemning through Santa Fe property for right of way to waterfront. City Attorney Hall to confer with committee from council in adjusting claims of small property owners in matter of tunnel right of way.

New ordinances introduced: Regulating laundries, fixing curb grades and sidewalk widths, and gas tank district.

Fire alarm and telegraph systems deferred. Sprinkling wagon to cost \$385 held up. Map of Harbor Front tract partly accepted. Clerk ordered to advertise for bids for improvement of Ohio from First to Ashland.

Bills to the amount of \$686.80, including \$243 for the Daily Independent, were allowed.

Be a Candle—or Something.

Editor Terminal: The great D. L. Moody one time said: "If you cannot be a lighthouse be a candle." But that seems very hard for some of us. We want to be the "whole show," as it were, or we won't play.

Well, say! That kind of a spirit has always been the bane of the helpful, right thinking man's existence. If you don't play my way I won't play at all. Out upon such tactics, either in politics or religion. Some people think if they are not elected to a certain office, the party, the state and finally the nation will go to the dogs, and they start immediately after their defeat to ruin all they can.

It is the same in the church. If some malcontent cannot have his own way and continually pose in the spotlight, there is hell to pay, and they immediately begin their nasty work.

Say! If you cannot be a lighthouse be a candle. See?

OBSERVER.

T. Shanks and family are touring the San Joaquin valley via auto. They are now in the Yosemite. Colin is driving.

BRIEF LABOR NOTES.

The Columbia Steel Works at Pittsburg is endeavoring to run as an open shop proposition, having refused the demands of its 175 employees now out on a strike. The men ask for an 8-hour day, with a continuance of the present wage, \$4 per day. The hours required by the company are nine. The company has requested protection from the sheriff, although there has been no demonstrations by the men out on strike.

STATE SAVES MUCH MONEY ON NEW CEMENT CONTRACT

Bargains for Million and Half Barrel at a Substantial Reduction Over Price Heretofore Paid

Sacramento—The grip of the so-called cement trust upon the state of California has been broken by the action of the state engineering advisory board in awarding to an entirely independent concern a contract for 1,500,000 barrels of cement, with the privilege of renewal for a similar amount at the end of the contract period. The huge order goes to the Old Mission Portland Cement company of San Francisco, whose plant is at San Juan Bautista.

The price per barrel is \$1.15, as compared to an average of \$1.30 now paid by the highway commission, \$1.49 by the San Francisco harbor commission, \$1.50 by the Southern Pacific and \$1.50 by the state engineering department. This action, which is the result of months of uphill work by State Engineer McClure, backed by Governor Johnson, will come as a surprise to the leading cement companies of the state which hitherto have been able to dictate prices to the state.

As the state highway commission is using 1300 barrels of cement per mile on the trunk lines, and as there are 1305 miles to be built, the saving of the contract to this department alone is estimated at \$300,000. The saving to the state work on the San Francisco harbor front, public buildings and other works will increase the amount to \$400,000. It also means that the highway commission will be able to construct more miles of road.

This is said by cement men to be the second largest cement contract ever awarded in any country. It is second alone to that let for the Panama canal, which was 5,000,000 barrels.

The contract calls for the delivery of 1,500,000 barrels during the twenty months period beginning March 1, 1914, or earlier if desired. The aggregate amount of the contract at \$1.15 per barrel is \$1,725,000.

The contract permits a renewal for the same amount of cement, making a total value of \$3,550,000 for the contract during the forty months.

In successfully combating the trust, State Engineer McClure was forced to seek a new concern, and this was found in the Old Mission Cement company, which is not yet fully established, although it has secured virtually all of its machinery, the plant to date representing an investment of \$1,750,000. The winning of this contract assures

the complete financing of the establishment, so that it will be able to supply cement to the state as required next March.

The mineral deposits in the neighborhood of San Juan Bautista were recently examined by the geological expert for the state highway commission, who reported them to be adequate and well placed for economical handling.

BOARD ORDERS CHANGE IN HIGHWAY SURVEY

Sacramento—New surveys for the state highways have been ordered as follows by the advisory board of the state department of engineering:

San Mateo county, from Cypress Lawn cemetery to South San Francisco, two miles; Santa Clara county, from Morgan Hill to Gilroy, seven and one-half miles; Santa Barbara county, from Los Alamos to a point one and one-quarter miles north of Bicknell station, twelve miles.

Preliminary work to consider the possible survey for sections of the state highway from Colusa Junction to Colusa City, and from Roseville in Placer county, to Nevada City, via Auburn, were ordered.

The state highway between El Dorado and Placerville will be built along the old Green valley road according to the decision of the board.

Of great importance to residents of the San Joaquin valley is the survey ordered for a new state highway route from Farmington in San Joaquin county, to Sonora in Tuolumne county by way of Knights Ferry, Keystone Mountain Pass and Jamestown.

The board ordered the highway commission to adopt the recommendation of the state highway engineer which provides for the routing of the state highway in Tehama county from Tehama to Corning, along the general line of the Southern Pacific railway.

A contract for about eleven and one-quarter miles of road in Los Angeles county from Calabasas to the western boundary, was awarded to Gillette, Montgomery and Tracy for \$101,997.

In Santa Clara county a contract for one mile of concrete bituminous construction was awarded to John Doyle of San Jose for \$7,887.

Lee C. Garney was awarded the contract for eight miles of road in Ventura county for \$51,869.

New Stanford Policy Is Announced at Dr. Jordan's Elevation to Chancellorship

Stanford University—Following announcement previously made, the new office of chancellor of Stanford University was formally created on Friday, and Dr. David Starr Jordan, head of Stanford University since its foundation, was named to fill the office. The new office was established in order to enable Dr. Jordan to drop the administrative duties of his position and devote his entire time to his work on behalf of the world peace movement. He will receive the same salary which he is now receiving as president, but will be free, in the name of the university, to continue his great work for the cause of humanity. Dr. Jordan will still continue to work for the advancement of the university.

John Casper Branner, professor of geology at Stanford, and since 1899 vice-president of the university, succeeds Dr. Jordan as president.

Concurrently with Dr. Jordan's elevation, Stanford trustees announced a radical change of policy which will be the guide in the future development of the institution.

From now on it is proposed to limit

the scope of work to the perfection of existing branches of education, with out undertaking any new field until those already established have been made equal if not superior to the best departments of their kind in the leading educational institutions of the United States.

And it is proposed immediately to limit the attendance at the university, keeping the enrollment of women to 500, as is now the rule, and keeping the enrollment of men down to the present 1300 or less, as may be deemed best.

Stanford's motto will be quality and not quantity, and the resources of the university, which are about to be expanded enormously through judicious management, will increase the annual sum allotted to academic work and will make the ambitions of the trustees an early reality.

Stanford University, by this announcement definitely steps out of the race for mere numbers. Its students say the trustees will be picked for their character and their potentialities. Other institutions may continue to strive to excel in size; Stanford will aim to excel only in achievement.

NELSON BILL TO AID SEAMEN WILL PASS

Washington—A subcommittee of the senate commerce committee agreed to report favorably Senator Nelson's bill to "promote the welfare of American seamen in the merchant marine." This bill, known as the Alexander bill in the house, which abolished involuntary servitude of seamen and provides other reforms, will soon be passed by the house. With the favorable report of the senate subcommittee the senate undoubtedly will pass the Nelson bill, and the legislation will go through this session.

Practically the same bill as the Nelson measure passed the house and the senate at the last session, but former President Taft did not sign the bill before leaving office.

Andrew Furuseth of San Francisco declared that the legislation is the most important that will ever affect American seamen. He said the law would have three important results: "Give freedom of seamen, develop the personnel of seamen to the highest plane, and make for safety at sea."

Illinois Minimum Wage Bill
Springfield, Ill.—The vice commission of the Illinois senate decided on the

minimum wage bill which was introduced in both houses of the legislature. The bill as outlined creates a minimum wage commission of three members, no more than two of whom shall be of the same political party. The bill provides that \$7.50 per week be fixed as a minimum wage until the wage commissioners shall have fixed a minimum wage under the act. A fine of not less than \$25 is named as a penalty for the first violation of the law and jail sentences of from thirty days to one year for repeated violations.

May Cancel Grain Bag Orders
San Francisco—Warden Hogle of San Quentin has been authorized by the state prison commission to cancel with such farmers as desire their contracts for prison made jute bags, because of the failure of crops in certain sections of the state due to the shortage of rain. Farmers desiring to have their contracts canceled have been advised by the board to give notice before June 1.

State Pharmacists Meet
San Jose—The annual convention of the State Pharmaceutical Association was held here during the week, with 300 delegates present. The social program included a reception and automobile excursions through the valley.

Powerful Lobby at Work, States President Wilson

Washington, May 27.—President Wilson told the White House correspondents that he believed the most extraordinary lobby ever gathered by special interests to overcome legislation is now mustered at the capitol against the tariff bill.

The president said he had no doubt a few so-called lobbyists were there on legitimate errands, but that a great majority were occupied in a systematic misrepresentation of facts. While the president believes that the "lobby" opposition is concentrated against free sugar and free wool, he is not apprehensive that it will be successful.

The president made it clear that he believes scientific business methods and efficiency would overcome tariff cuts, and that with the application of scientific methods Louisiana would not only be able to continue in the sugar industry but to do so profitably.

The president later issued the following statement:

"I think the public ought to know the extraordinary exertions being made by the lobby in Washington to gain recognition for certain alterations of the tariff bill. Washington has seldom seen so numerous so industrious or so insidious a lobby. The newspapers are being filled with paid advertisements calculated to mislead the judgment of public men not only, but also the public opinion of the country itself. There is every evidence that money without limit is being spent to sustain this lobby and to create an appearance of a pressure of public opinion antagonistic to some of the chief items of the tariff bill.

"It is of serious interest to the country that the people at large should have no lobby and be voiceless in these matters, while great bodies of astute men seek to create an artificial opinion and to overcome the interests of the public for their private profit. It is thoroughly worth the while of the people of this country to take knowledge of this matter. Only public opinion can check and destroy it.

The government in all its branches ought to be relieved from this intolerable burden and this constant interruption to the calm progress of debate. I know that in this I am speaking for the members of the two houses, who would rejoice as much as I would to be released from this undesirable situation."

SUPREMACY OF PARLIAMENT IN CHINA DEMONSTRATED

London.—The Daily Telegraph's Peking correspondent cables that confidential negotiations between leaders of the Kuo-Ting-Tag, southern radical party, and the provisional government have resulted in a compromise on the four-power loan, and parliamentary committees have been appointed to supervise its expenditure. The correspondent regards this arrangement as most significant, showing that parliament can and will be supreme. He adds:

"Yuan Shi Kai accepted the inevitable none too soon. Although he commands 150,000 troops and foreign opinion, and wrongly believes himself to be master of the situation, he is virtually a prisoner in the forbidden city, not daring to move owing to terrorist threats. He must now realize that China must be governed constitutionally. Unless he does so he will sign his own death warrant."

FIRST THROUGH CUT MADE ON THE CANAL

New York, May 26.—The first through cut of the Panama canal from east to west was completed Saturday when two steam shovels working from the opposite directions met at Culebra. With the meeting of these great steam shovels, the canal was opened at grade from ocean to ocean.

Hundreds of workmen quit work and cheered when the big shovels scooped out the last bit of earth that joined the two continents.

There is still to be excavated in broadening the canal about 8,000,000 cubic yards of earth.

LANE SELECTS AUTO ROUTE TO YOSEMITE

Washington—The Coulterville route for automobiles to Yosemite Park has been selected by Secretary of the Interior Lane. Automobiles also will be permitted to go over the Big Oak Flat road as far as Coulterville.

In a telegram Secretary Lane directed Major Littlebrant, superintendent of the park, to frame regulations under which automobiles will be permitted access to Yosemite, and to forward them to him for approval. When this is done a date will be set on which the road will be thrown open.

Ancient Relics Found Near Berlin
Berlin—An urn containing a collection of gold articles attributed by experts to the seventh and eighth centuries before the Christian era, has been uncovered by well diggers on an estate in the vicinity of Eberswalde, about twenty-seven miles from Berlin. The urn contained seventy-eight articles. These include bowls, bracelets and rings supposed to be of Phoenician origin and imported to Germany by way of the Baltic.

California Dental Convention
Oakland—Between 700 and 800 dentists of California, including a few special delegates from Washington, Oregon and Utah, will gather in Oakland for the annual convention of the California State Dental Association, which will hold its sessions at the Hotel Oakland June 2 to June 5.

REPUBLICANS WILL CALL CONVENTION

Party Leaders Complete Re-Organization Plans For Future Campaigns

National Committee Will Be Called to Meet Sixty Days After Congress Adjourns

Washington—Leaders of the Republican party—members of the executive committee of the national committee from twelve states—gathered here Saturday and laid preliminary plans for the congressional campaign of 1914 and the national political battle of two years later, to gain control of congress and possession of the White House.

As a result, the Republican national committee will meet sixty days after the adjournment of the extra session of congress, and an extraordinary Republican national convention is expected not later than a year hence. Changes in the basis of representation in national conventions and reform of methods of party procedure, which have been subject to criticism, will be disposed of through these agencies.

This conference was the first formal meeting of Republican leaders since the 1912 campaign, and it was harmonious throughout. The need for reform within the party was not denied and steps were taken to bring about changes in party methods which members, in discussion, declared were of paramount importance. The suggestion of the Progressive element for a national convention in the near future was heard, and it was practically the unanimous opinion that such a convention should be called.

Plans for the coming campaign agreed upon include close co-operation by the national committee with the congressional campaign committee, through district headquarters to be established here in July. Secretary James B. Reynolds of the national committee will be in charge. Chairman Hilles, Senator Jackson and former Senators Crane and Sanders were appointed to plan the details.

The decision to call the national committee together sixty days after adjournment of congress was reached, because by that time the party leaders believe they will have a sufficient knowledge of what the country thinks of the Democratic tariff, currency reform and possibly other important legislation, to lay definite plans for the campaign.

Senator Cummins, chairman of the conciliation committee, expressed gratification over the outcome of the meeting. He declared the executive committee had granted everything the Progressive faction had asked in its letter.

ALASKA TRUST-RIDDEN SAYS WICKERSHAM

Washington—Delegate Wickersham charged before the territories committee that a combination of transportation companies was opposing government construction of railroads in Alaska. He declared that the Copper River and Northwestern and the White Pass and Yukon railways, the Alaska Steamship company, the Pacific Coast Steamship company and R. S. Ryan, controller of the Bay Navigation company, were in the opposing syndicate. He added that the "hands of J. P. Morgan & Co. and the Guggenheims" were to be seen in every move connected with Alaska.

WILL MOVE SLOWLY IN RECOGNITION OF HUERTA

Washington—President Wilson made it clear that the United States government had reached no decision as to recognizing the Huerta government in Mexico.

He indicated that when recognition is extended it will be as a result of general adjustment of conditions in Mexico.

The impression gained at the White House was that the Washington government would await the outcome of the presidential elections in the southern republic.

New Massachusetts Flag Law

Boston—The carrying of any flag other than the national or state emblems or the flags of friendly foreign nations and their dependencies in any parade in this commonwealth is prohibited in a bill which has received the approval of Governor Foss. The measure provides further that no sign bearing an inscription opposed to organized government or which is sacrilegious or derogatory to public morals shall be carried in parades.

Drullard Re-Elected Mayor

Santa Cruz—Dr. T. W. Drullard was elected mayor over Wilson R. Springer by a vote of 2156 against 1034. This was the shortest ballot ever voted, due to the fact that all the other city officials were elected by majority votes at the primary election. Drullard has previously served two terms as mayor.

Leiter Estate Large

Washington—The estate of the late Mrs. Levi Z. Leiter has been appraised at \$3,672,725, not including household effects of the Leiter mansion here or personal property in Chicago.

Spain Hopes to Stop Immigration

Madrid—To prevent the drain of its population by the emigration of 200,000 persons a year the Spanish government is planning extensive railroad and highway building schemes.

WORLDWIDE MEAT WAR DECLARED BY RIVAL PACKERS

Chicago—A world-wide meat war is on.

Millions of dollars will probably be sacrificed before supremacy in the meat trade is established. The fight is between rival packers, with almost limitless wealth behind them.

The battle has developed into a three-cornered one. The principals are:

1—Packers of Chicago, Kansas City and Omaha.

2—Packers of Australia and Argentina.

3—Business men and large ranch owners of Los Angeles and other big cities west of the Rocky mountains.

The first open shots in the fight already have been fired. Three distinct campaigns, each demonstrating the far-reaching effect this war will have, have been inaugurated in the last two weeks.

First—Chicago packers invade the London market and undersell the Australian and Argentine packers in an attempt to get the trade.

Second—Australia and Argentine retaliate by sending a big cargo of beef to California where it is now being sold for less than the American meats.

Third—Revelation of plans by stockmen and businessmen to establish a \$5,000,000 union stock yards in Los Angeles to do away with the buying of meats from the packers of Chicago, Omaha and Kansas City.

Officers of the proposed Los Angeles yards have already been chosen. The gauntlet has been thrown down to packers of great packing cities.

Stockmen owning great ranches in Wyoming, Idaho, New Mexico, Arizona and Utah, who for scores of years have been shipping their cattle east, have signed contracts to sell their meat direct to the Los Angeles market.

By doing so the rate of freight will be lessened by more than half in the transportation of the stock. The consumers, it is promised, will benefit by the gain.

WOULD LET KANSAS CATCH UP WITH LAWS

Topeka, Kas.—Governor George H. Hodges would have the Kansas legislature cease from meeting for eight or ten years, so the state could catch up with the laws on its statute books. For six years now the Kansas legislature have been passing the most progressive enactments in the country. Here are some of the "first things" Kansas did and which other states are copying:

Kansas blue sky law, copied by seventeen states.

Abolished common drinking cup, copied by twenty-eight states and the government.

Abolished common roller towel.

Created first small debtors' courts, where lawyers and fees are unknown.

Provided efficiency test for all bank employees.

Provided first rating bureau for fire insurance.

"Let the legislature disband for a number of years until the state catches up," said the governor. "We have a greater number of progressive laws upon our statute books than any other commonwealth."

EXPOSITION OFFICIALS TO ERECT CALIFORNIA BUILDING

Santa Cruz—By a vote of 28 to 11, the counties represented at the California Counties Supervisors convention, in session here, agreed to pay the Panama-Pacific International Exposition company \$2.50 per square foot for whatever space they took in the state building which is to be erected by the exposition company.

R. B. Hale, vice-president of the Panama Pacific Exposition company, addressed the convention and made the statement in behalf of the exposition people, that they would furnish the California building, providing the counties would buy the space.

A hot debate followed on the recommendation of the committee that this plan be adopted and it was only after Hale had informed the delegates that the exposition company was willing to erect the building, provided the counties would go in on the basis of \$2.50 per square foot, that the delegates favored the plan.

CIVIL SERVICE EXAMINATIONS

San Francisco—The United States Civil Service Commission announced that the examinations listed below will be held in San Francisco at an early date.

Application blanks and further information relative to these examinations may be obtained from the secretary, Twelfth Civil Service District, Room 241, Postoffice Building, San Francisco, Cal.

Apprentice draftsman (male), office of the chief of ordnance, war department, Washington, D. C., salary \$360 per annum.

Copist ship draftsman (male), bureau of construction and repair, navy department, Washington, D. C., salary \$2.40 per diem.

Electro metallurgist (male), bureau of mines, salary \$1500 to \$1800 per annum.

Philatelist national museum, Washington, D. C., salary \$1200 per annum. Sanitary bacteriologist (male), public health service, Washington D. C., salary \$1200 to \$1500 per annum.

Story of the Wicked Dwarf

The second installment of "Garden Making and Some of the Garden's Stories," by Grace Tabor, in the June St. Nicholas will tell "the story of the wicked dwarf" (aphids) and just the information which garden makers of all ages want at this time of year.

Decorated Day.

White labor of the Pacific coast is now confident there is nothing alien Governor Johnson.

Governor Johnson's stand on the Jap question has endeared him to the hearts of the common people.

If the redlight law is held up by the referendum, it will eventually become a more drastic measure and be endorsed by the whole people.

The decision of the umpire was that Teddy could drink any old kind of refreshments, including the Commoner's grape—if it was really necessary.

Weston, the veteran hiker, is counting the ties from New York to Minneapolis, a distance of 1200 miles. Although Weston is 75 years old, this is only a "little constitutional" for a "kid" like him.

The possibilities of Hiram Johnson's candidacy for president of the United States are looking bright. To carry out Governor Johnson's progressive ideas, Hon. J. M. Eshleman should succeed him in the high office of Governor of California.

The Spring Valley Water Co. has notified users that street and lawn sprinkling is hereafter prohibited, also the hosing down of sidewalks, etc., the company claiming that the supply is limited and daily decreasing. San Francisco is not alone in solving the water supply. The entire bay cities face a serious situation.

Why should prize fighting (misnamed boxing) be classed as a clean and legitimate sport after the recent exhibition in Calgary when one of the contestant's lives was snuffed out before the battle for physical supremacy had fairly started? This tragedy adds one more to the long list of such exhibitions that have been staged in the last decade.

Richmond is being well advertised since the naval base site has been suggested for the eastern shores of San Francisco bay. We have deep water, solid ground and a natural location for drydocks that could be built to dock the largest dreadnaughts in the United States navy; also well protected hills for hidden batteries or disappearing guns that could play havoc with a hostile fleet should war become necessary.

Now that the streets in the business sections of the bay cities are as dark as a stack of black cats at night, burglaries, holdups and shooting escapades will become more frequent. The knight or the jimmy has the shades of darkness to assist him in his professional calls. But how about the light companies? Are their valuable franchises given by various cities jeopardized by failing to deliver the illuminative juice contracted for?

GOV. JOHNSON LABOR'S FRIEND

Governor Johnson and two clerks have scanned over 400 bills since the legislature adjourned and many of the proposed laws are being "canvassed" as useless legislation. Gov. Johnson proved his friendship for organized labor by affixing his signature to the laws passed most beneficial to labor's best interests and in approving the alien land ownership bill, has wisely informed Orientals that this golden land was reserved for the sons of future tillers of California soil. It was indeed humiliating the American patriot's son when the next highest officer in the government's cabinet was sent on such a mission to secure legislation that favored alien emigrants controlling the most productive lands this state possesses. England, France, Germany or Russia would have snubbed an envoy on a similar mission and Governor Johnson deserves the praise of the protectors of the rising generation for his firm, courageous, manly stand during the Japanese controversy.

The Terminal supported Hiram Johnson for governor and is proud of his record since he assumed the reins of the state's government.

Socialists Endorse Strike.

The following resolutions were passed by Local Richmond of the Socialist party at its regular weekly meeting in Labor Temple May 23, 1934:

Whereas, The employees of the Pacific Gas and Electric Co. are on strike for a trifle more of the wealth their labor creates, which the company steadily refuses to give them, it is resolved, by Local Richmond of the Socialist Party that we welcome the strike as evidence of the increasing dissatisfaction of the people who do useful work with the present economic system that is rapidly making the rich richer and the poor poorer.

This inquiry appears less in the decrease of the amount of comforts allowed to the poor, than in refusing to them the benefits made possible by the progress of science and industry.

Riches and poverty are not positive terms, but relative. Once it was a mark of wealth and power to have a tight roof and plenty of clean straw to sleep in, now every farmer's boys are thus enriched.

It cost very little to let a stream of water turn a wheel that generates electric current, and though the first cost of such a plant is heavy, the eagerness of speculators to seize every water power site is proof enough that such power is cheaper than that developed by any means available by individual effort. Still our laws allow all the advantage hence arising to enrich greedy corporations, while to the common people electricity remains an expensive luxury instead of being the cheapest means of light, heat and power as it should be.

It is another instance of increasing the relative poverty of the poor by allowing a few rich people to own what all need.

In resisting the demands of the strikers the company is calling attention to its excessive profits. Its attitude is the expression of its profit hunger.

Should it grant the demands made, it would be paving the way for future strikes that would still further reduce its dividends.

This condition is the inevitable consequence of allowing public utilities to be owned for private profit.

While sympathizing heartily with the striking workers in their effort to secure a little more of their own, we ask them and all others interested to carefully investigate the comparative merits of corporate ownership versus socialist ownership and to decide whether the Gas and Electric Co. with its high rates, low wages and liability to interrupt service in managing the business better for us than the postoffice and fire departments are managed.

Adopted by Local Richmond, May 23, and ordered given to the local press.

O. J. GIBBONS, Secretary.

Gibbons Gives Figures.

Richmond Terminal: As The Terminal was the only newspaper published in Richmond that had the backbone and nerve to support the recently elected labor candidates for city councilmen in Richmond, I am sending you a little information for the general public, trusting you will give it space in your valuable paper. It is in relation to the present strike of the Gas and Electric Co.'s employees that is causing so much inconvenience to the public at the present time.

No one vouchers for the absolute correctness of census figures, but the following taken from the U. S. Census (California Supplement) of 1930, gives the following interesting information at this time. The profits of corporations in the very nature of things are bound to be a matter of uncertainty to the outside world from which their profits are taken, but the census gives the amount of profit the company is willing to own up to for publication.

This report refers to gas workers, not electric workers, but the same company is running both, and as

electricity is displacing gas because it is manufactured cheaper, it naturally follows that this minimizes rather than exaggerates the grievances against which the men are striking:

Manufacturers of gas, heating and lighting, No. of establishments 74. Proprietors and firm members, one. Salaried employees, 871. Salaries (yearly), \$821,000. No. wage earners, 1666. Wages, \$1,408,000.

Cost of materials, \$2,600,000. Value of product, \$8,027,000. Value added by manufacturers, \$6,323,000.

Value added per employee, \$5370. Average salary paid employees, \$880. Yearly profits per employee, \$1450, or \$4.65 per day net profit made by the company of each and every employee every working day in the year.

The electric workers struck for an increase of fifty cents per day. Verily the patience of the working class is the wonder of the world.

O. J. GIBBONS.

Richmond's Industries—Number of Men Employed.

In answer to numerous inquiries as to the number of manufacturers and the number of men employed, The Terminal herewith publishes a list for the benefit of its readers and those who may be interested in Richmond's development. Richmond has 34 manufacturers, 8 of which employ (March 1, 1933) 4,665 men, classified as follows:

Industry	No. of Men Employed
Standard Oil Co.	2,200
Pullman Shops	750
Santa Fe Shops	600
Western Pipe Works	175
California Wine Association	165
San Francisco Quarries	100
Pacific Portland Works	100
Pacific Sanitary Mfg. Co.	75

Total, 4,665.
Besides the above there are 26 smaller manufacturing industries in Richmond such as brick works, cap and match factories, etc., employing 850 men and women. These figures are conservative and not given for advertising purposes. They are taken from statistics gathered by the Western States Gas & Electric Co. by request of their main headquarters at Chicago.

The assessed valuation of Richmond property is \$12,333,352.40. Bonded indebtedness, \$100,000, for harbor improvements. Number of building permits for 1932 were 902, value \$800,000.

TO ADVERTISERS.

There are employed in Richmond 3000 organized workers. This newspaper was the only organ in Richmond that supported the "2700" club union candidates. The Terminal in consequence will continue to prosper and grow, for the workman is a consumer as well as a producer and distributor of his earnings. He naturally will patronize the paper that stands by him in his struggle for better conditions. The Terminal is the workman's friend, and its advertisers will surely reap the benefits of publicity placed in its columns. The Terminal is the oldest newspaper in Richmond, was the first to carry the allied printing trades label at its masthead. Merchants need no instructions in placing their publicity where it will be effective.

WANTED—Boarders and roomers; close in and convenient to all work in Richmond and vicinity. Call at 632 Third street.

Notice to Dealers in School Supplies.

The board of education of the city of Richmond and of Richmond School district, state of California, invites and the clerk of said board will receive at the office of the board of education, Lincoln school, Tenth street, Richmond, California, up to the hour of 5 o'clock p. m. of Wednesday, May 28, 1934, sealed proposals for furnishing such school supplies and furniture as may be required by the Richmond school department during the school year commencing July 1, 1934, and ending June 30, 1935, as per list on file in the office of the board of education.

Said list of school supplies and furniture was adopted by the board of education on the 23rd day of April, 1934, and copies will be sent on application.

Bidders must file a separate bid for each article in the list setting the price for which said article will be furnished, and the awards will be made on the basis of lowest price, and not as a whole. Bids must be sealed, designated "Bids for School Supplies and Furniture," and will be opened by the board at or after 8 o'clock p. m. Wednesday, May 28, 1934, in the office of the board of education, Lincoln school, Richmond, California.

All bids must be accompanied by a certified check in the amount of ten per cent of the total amount of all bids filed by such bidder, which check must be payable to the order of W. T. Helms, clerk of the board, and will be forfeited in case bidder refuses to enter into a contract for furnishing said supplies, if his bid is accepted.

The board reserves the right to reject any or all bids or any part of a given bid.

By order of the board of education, April 23, 1934. W. T. HELMS, Clerk. May 9-16-23.
